

WATT'S NEW AT HUTT ELECTRIC

"We're here to help you help your customers"

Welcome to our 189th
edition of our newsletter!

August 2010

This newsletter will provide you, our customers, with information on new technologies, products, discontinuations, etc. in the electrical industry. It will also provide you with information on any projected price increases, price decreases, and any 'special buys' at Hutt Electric Supply.

Hunt, Fish, Camp.....

SIEMENS

For the month of August, for every *individual invoice* purchase of \$1000 of Siemens residential products* , receive a **\$50.00** gift card for Gander Mountain.

* Qualifying products include all residential loadcenters, breakers, disconnects, etc. purchased through our stock. Note: job quoted orders do NOT apply to this promotion. Invoices cannot be combined to reach the goal.

| 50 - 5/8 x 10 ' galvanized ground rods. (m in quantity of 5) New, unused, factory shipping error | \$6.00 ea |

NEC Code Questions and Answers.....

Q. If I run PVC between the meter and service disconnect, is an equipment grounding conductor required?

A. At service equipment, the service neutral conductor provides the effective ground-fault current path to the power supply [250.24(C)]; therefore, an equipment grounding conductor isn't required to be installed within PVC conduit containing service entrance conductors [250.142(A)(1) and 352.60 Ex 2].

All questions and answers are based on the 2008 NEC, taken from EC&M (http://ecmweb.com/nec/code_qa/)
