

WATT'S NEW AT HUTT ELECTRIC

Welcome to our 179th
edition of our newsletter!

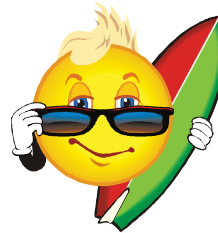

September 2009

"We're here to help you help your customers"

This newsletter will provide you, our customers, with information on new technologies, products, discontinuations, etc. in the electrical industry. It will also provide you with information on any projected price increases, price decreases, and any 'special buys' at Hutt Electric Supply.

Closed...

We will be closed for
the Labor Day holiday
on Monday,
September 7th. Enjoy
your long weekend!

Price

Increases

Special of the Month

NSI 100W Metal Halide Dusk-to-Dawn fixture

Qty 2-5

\$ 75.00 ea.

Qty 6+

\$ 68.00 ea.

- Wet location listed; H: 17.5" W: 12.125" D: 28.625"
- No lens needed/MH protected lamp included
- Die cast aluminum housing
- Dusk to dawn photo control included
- 3 mounting options-short arm, 18", 21"
- Arms and hardware included
- UV Resistant Acrylic lens UL/CUL listed for wet location use

Last fall there was an industry wide shortage of Dusk-to-Dawn fixtures. Stock up now to avoid any potential shortages this year.

GFCIs Boost Safety and Convenience

Ground fault circuit interrupters (GFCIs) protect people against effects of electric shock that can occur when electricity is used near water and a fault develops between the energized tool and ground.

In new construction or renovations, the 2008 NEC requires GFCI receptacles or GFCI circuit breaker protection outdoors in patio, deck and pool areas and indoors in kitchens, bathrooms, laundry and utility rooms, carpools, workshops, unfinished basements, crawl spaces, and outbuildings as well as in locations where an electrically powered mower, trimmer or other garden tool or drill, sander or saw might be plugged in. The NEC also mandates that replacements or repairs of old wiring in areas where GFCIs are required in new construction incorporate GFCI receptacles whether or not previous receptacles were grounded.

Today's GFCI receptacles feature many safety and convenience enhancements. For example, tamper resistant units incorporate a shutter mechanism that blocks access to the contacts unless a 2-prong plug is inserted, protecting children against the danger of inserting foreign objects by locking anything else out.

Weather resistant GFCI receptacles have covers and gasketing that help ensure reliable performance in wet conditions. Leviton's SmartlockPro Weather-Resistant GFCI Receptacle, for example, has a dead-face design, stainless steel mounting strap and terminal screws, and UV and cold impact resistant cover. The PC board and electronic components are coated for additional protection against moisture.

Another specialty GFCI is Leviton's GFCI wall outlet with LED nightlight that turns on automatically at night. The device has a power indicator light that helps diagnose improper wiring and, when illuminated, provides visual confirmation that power is available. The unit can incorporate feed-through wiring connections that also protect other outlets downstream on the circuit.

RENTALS

Equipment:

- ◆ Mini-Tower Scaffolding
- ◆ 22' Scissors Lift
- ◆ Tractor/ Loader
- ◆ 3-Point Disc/ Cultivator
- ◆ 3-Point 48" Brush Mower
- ◆ Tandem Axle Trailer
- ◆ Mini Excavator
- ◆ Skid Steer
- ◆ Much more.....

Daily, weekly, and monthly rate lists are available at the sales counter or online .
